SUMMARY

Motivated, Quick Learner, and Enthusiastic. I have a passion for engineering, and problem solving. As someone who is always looking for something to work on or learn, in the past year I have become proficient in JavaScript, React.js, SQL and Node.js. I have four years of Membership experience that gave me a deep understanding of CRM and AS400. Working in this environment further progressed my abilities in teamwork, communication, and patience.

SKILLS

Front-End: CSS, JavaScript ES6, React, React Hooks, HTML5

Back-End: SQL, Node.js, Express

PROJECTS

Portfolio | [Project Link](#)

Created a Portfolio Webpage that lets people connect with me and see some of the things that I have created.

- Wrote the CSS and HTML for the entire webpage
- Used CSS to create effects to make the page stand out
- Created routes that led to projects that I have made

Decoder Ring | [Project Link](#)

A decoder built for a friend that loves puzzles. There are codes that you can insert that will unscramble and create messages.

- Wrote a series of unit tests using Mocha and Chai
- Created complex algorithms to complete the project
- For the Polybius Cipher "plmoknijbuhvygctfxrdzeswaq" is the alphabet key

Restaurant Reservation System | [Project Link](#)

A culmination of everything that was taught in the course put together all into one project. Backend and Frontend applications designed around user stories and how to implement them

- The app must be a full-stack app using React.js, CSS, Node.js, Express, and PostgreSQL
- All code must be high quality, error free, commented as necessary, and clean
- Use React along with the API that you built as part of the final capstone
- Node, Express, PostgreSQL API, React and CSS

EDUCATION

Certificate, Full Stack Engineering

May 2022

Thinkful | Remote

- High Paced online course set to give the skills needed to succeed in Full Stack Engineering
- Created a multitude of projects that helped me become proficient in both the Front End and Back End
- Had Live coding Interviews with Industry professionals to show that I was able to perform to be able to keep advancing in the course

AA in Arts and Science

2019

Bellevue College | Bellevue, WA

EXPERIENCE

Front End Cashier Assistant

Costco | San Bernardino, CA

Oct 2022 - Current

- Packs member orders into boxes and transfers items to a separate cart for cashiers. Performs clean-up, cart retrieval, merchandise restocking and runs for items as directed. Provides a high level of member service

Refund Cashier

Costco | Issaquah, WA

Sep. 2017 - Sept. 2021

- Processes member sign ups, renewals and added cards. Educates members and potential members about membership, warehouse and credit programs
- Accessed Members accounts using CRM to find update information when necessary
- Consistently Engaged and Led Marketing Campaigns and Promotions to increase sales and customer engagement across all departments
- Provided excellent Member care to promote store loyalty and customer experience
